

Cleaner and more effective than putting the boot in!

With their dry to touch glue and advanded attractants the Trappit CR range from Agrisense will help you do your job without you having to get your hands or boots dirty.

When it comes to cockroach monitoring you can count on the CR range to stop those pests in their tracks. Agrisense also manufacture products that monitor moths, bed bugs, flies and wasps.

Agrisense products are available from Barrettine now.
