

# MoBe<sup>®</sup> Moat

## A Multi-purpose Adhesive Barrier

For temporary quarantine, pest monitoring and product protection.

Protects against  
Crawling Insects

### KEY FEATURES:

- Isolate suspected and infested products.
- Ideal for use as a temporary monitor trap & entry barrier.
- Chemical free protection for food storage, production & handling materials.
- Special non-dry glue technology - stays sticky for long periods.
- 18 metres on every roll - special siliconised paper.
- Easy to tape down for greater security.

Attach food or pheromone lures to attract target pests.

MoBe Moat can be cut to fit any situation.
