

Systemic weed killer for the control of annual and deep rooted perennial weeds.

FOR USE AS A HOME AND GARDEN HERBICIDE

**Children and Pets need not be excluded from treated area
once the spray has dried.**

**TO AVOID RISKS TO MAN AND THE ENVIRONMENT,
COMPLY WITH THE INSTRUCTIONS FOR USE.**

MAPP number 17672

*Contains 360 g/l glyphosate in a
soluble concentrate*

IMPORTANT INFORMATION

**FOR USE ONLY AS A HOME AND
GARDEN WEEDKILLER**

For use on unwanted vegetation

**READ ALL INSTRUCTIONS
BEFORE USE**

PROTECT FROM FROST

SAFETY INSTRUCTIONS

Protection during/in use

WASH OFF SPLASHES IMMEDIATELY

DO NOT BREATHE SPRAY

WASH HANDS AND EXPOSED SKIN AFTER USE

Other general protection

Do not contaminate water with the product or its container

Do not empty into drains

Storage and disposal

KEEP AWAY FROM FOOD AND DRINK

KEEP PRODUCT AWAY FROM CHILDREN

KEEP PRODUCT IN ORIGINAL CONTAINER, tightly closed, in a safe place.

EMPTY CONTAINER COMPLETELY and dispose of safely

Dispose of empty container in the dustbin.

TO AVOID RISKS TO MAN AND THE ENVIRONMENT, COMPLY WITH THE INSTRUCTIONS FOR USE.

DIRECTIONS FOR USE

WHEN TO USE

Gallup Home & Garden contains glyphosate for effective control of annual and deep-rooted perennial garden weeds, including grasses, docks, nettles, willowherb, dandelion, bindweed and many more. Gallup Home & Garden is inactivated on contact with the soil and is broken down by soil organisms to leave no lasting residues.

- Apply when weeds are actively growing and have adequate leaf area to absorb the spray.
- Spray nettles and ground elder when new leaves have fully unfolded in late spring.
- Do not spray in windy conditions as drift can damage or kill valued plants.
- Do not walk into treated areas until the spray has dried on the leaves, to avoid transfer to lawns and other wanted vegetation.
- Rainfall within 6 hours of application may reduce effectiveness and require re-treatment.
- Treat established perennial weeds at the start of flowering for best effect.
- Weeds may show the first effects from a few days up to 4 weeks later depending on the weather and type of weed.
- Leave treated weeds for at least 7 days before cultivating.
- Gallup Home & Garden kills most weeds with a single application. Some tough weeds, e.g. ground elder, may need a repeat treatment after 3-4 weeks if regrowth appears.
- If re-treatment is required repeat only once per season.

Take extreme care to avoid spray drift. DO NOT SPRAY in windy weather or near to desirable species or plants as drift can cause severe plant injury or destruction.

WHERE TO USE: For use on unwanted vegetation. DO NOT use on lawns.

HOW TO USE: Apply with a knapsack sprayer as a MEDIUM-COARSE spray.

	Gallup Home and Garden to be added	Amount of Water to be added	Area Treated
Knapsack Sprayer	24 ml	1 litre	40 square metres (5m x 8m)

Spray to just cover the weeds without run-off from the leaves. Ensure the sprayer is only used for herbicide application.

MIXING

Knapsack application: Add 24mls of Gallup Home & Garden to 1 litre of water to treat up to 40 square metres (5m x 8m). Shake/agitate the mixture thoroughly before use. Use immediately after mixing.

DO NOT MIX, APPLY OR STORE GALLUP HOME & GARDEN IN GALVANISED OR UNLINED MILD STEEL CONTAINERS.

FUTURE PLANTING

Gallup Home & Garden has no long-lasting effects in soil after application. Cultivations and planting can be conducted 7 days after application or if the weather has been cool, after the weed leaves have become yellowed or have died back.

CARE OF EQUIPMENT

Wash equipment thoroughly after use with water to remove traces of Gallup Home & Garden. Traces of Gallup Home & Garden left in the equipment may seriously damage or destroy plants sprayed with the same equipment at a later date.
