

PREMIER

# *Universal Wood Preservative*

Oil/solvent based formulation allows deeper penetration. For use against wood destroying insects and helps prevent wood rotting fungi including dry rot from attacking sound/uncontaminated wood. For use on external timbers only.

- For use on wood out of ground contact and away from surface water contact.

■ Ideal for rough sawn or smooth timber.

■ Harmless to plants when dry.

■ Ready to use formulation.  
Contains water repellent waxes.

## **DIRECTIONS FOR USE**

### **DIRECTIONS FOR USE**

The coloured & clear preservers offer excellent protection for Log cabins, garden rooms, sheds, fences etc.

### **PREPARATION**

Ensure wood is clean, dry and free from surface coatings, such as varnish, paint etc, remove as necessary. This preservative helps prevent the growth of new fungal spores but will not necessarily kill or control fungal spores already present. Prior to treatment with this preserver we recommend the use of a surface biocide such as Knockout Mould & Mildew cleaner. CAUTION - May not protect poor quality/contaminated timber from fungal growth/attack.

### **AGITATE THE PRESERVER BEFORE AND DURING USE.**

Brush on, allowing to dry between application coats.

End grain should be treated to saturation. Colour may vary from batch to batch - Mix well before use.

Results may also vary depending on type and condition of timber being treated.

For Garden Furniture, Clear Wood Preservers are recommended as well as wood oils. Avoid contact with plastic, masonry etc.

Any spillages on bitumen type products may soften or swell with the fluid or vapour.

### **APPLICATION**

On sawn timber two generous coats are normally sufficient, giving up to 8 sq metres per litre. On smooth planed wood best results will be obtained with 2-3 brush coats evenly applied. Reseal tin after use and clean brushes and splashes with Barretine White Spirit. Drying time is normally 48-72 hours. But allow to dry thoroughly (up to 3 weeks) before introducing plants / animals into greenhouses, hutches, cages etc. Over time and subject to weathering a retreatment is recommended.

### STATUTORY CONDITIONS RELATING TO USE FOR USE ONLY AS A WOOD PRESERVER FOR USE ONLY BY PROFESSIONAL OPERATORS

**Brush / Spray 1Ltr of product to 6-8sq metres of timber surface  
(2 or 3 coats may be applied).**

The COSHH (Control of Substances Hazardous to Health) Regulations 2002 apply to the use of this product at work.

Avoid excessive contamination of coveralls.

DO NOT BREATHE VAPOUR/MIST. In case of insufficient ventilation wear suitable respiratory equipment. Guidance on suitable respiratory protective equipment and eye protection is provided in HSE Booklet HS(G)53: "The Selection. Use and Maintenance of Respiratory Protective Equipment – A Practical Guide".

Do not empty into drains.

DO NOT CONTAMINATE GROUND, WATERBODIES OR WATERCOURSES WITH CHEMICALS OR USED CONTAINER.

DO NOT CONTAMINATE FOODSTUFFS, EATING UTENSILS OR FOOD CONTACT SURFACES.

COVER ALL WATER STORAGE TANKS before application.

This material and its container must be disposed of in a safe way.

If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

UNPROTECTED PERSONS AND ANIMALS SHOULD BE KEPT AWAY FROM TREATED AREAS FOR 48 HOURS OR UNTIL SURFACES ARE DRY.

REMOVE OR COVER ALL FISH TANKS AND BOWLS before application.

ALL BATS ARE PROTECTED UNDER THE WILDLIFE AND COUNTRYSIDE ACT 1981. BEFORE TREATING ANY STRUCTURE USED BY BATS, CONSULT NATURAL ENGLAND, SCOTTISH NATURAL HERITAGE OR THE COUNTRYSIDE COUNCIL FOR WALES. AVOID ALL CONTACT WITH PLANT LIFE.

HAZARDOUS TO BEES.

Do not use on beehives or beekeeping equipment.

Users must comply in full with all their legal responsibilities under The Control of Pesticide Regulations 1986 (as amended), including complying with all conditions of approval. Read all precautions before use.

**HSE No. 8259** USE ONLY IN ACCORDANCE WITH THE DIRECTIONS ON THE LABEL. Contains PROPICONAZOLE & PERMETHRIN.

VERY HIGH VOC CONTENT >50%  
VOCs (Volatile Organic Compounds) Contribute to atmospheric pollution.
