

FAST ACTING FOAM SPRAY FOR THE CONTROL OF WASP NESTS. USE WHEN THE NEST IS CLEARLY VISIBLE.

UFI: 9A5W-80RD-W00P-G56C

DIRECTIONS FOR USE: Shake well before use. Stand at least two metres from the nest. Holding the can as upright as possible, spray the foam towards the nest. The foam should cover the nest for maximum effect. In some situations and for large nests, a repeat application may be required. Spray in early morning or late evening when most of the wasps will be in the nest. NB: It is recommended that you wear protective clothing to guard against possible stings. Do not stand directly under the nest. If you are treating a nest outdoors, make sure the wind is behind you. Keep foam away from plants.

STATUTORY CONDITIONS OF APPROVAL RELATING TO USE:

FOR AMATEUR USE ONLY AS AN INSECTICIDE. Application rate: An 8 second burst will cover a nest with a diameter of 50cm. A 12 second burst will cover a nest with a diameter of 80cm. To ensure treatment is effective, the nest should be completely covered in foam. Users must comply in full with all their legal responsibilities under the Control of Pesticide Regulations 1986 (as amended), including complying with all Conditions of Approval.
