

SCOOT FOX REPELLENT

Scoot protects against fox fouling, digging, urinating and scent marking. Scoot works by creating an artificial 'scentmark' within the problem fox's territory that deters the fox from returning to that area in order to avoid potential conflict. Scoot can be used on and around borders, fruit and vegetable crops, lawns, trees, shrubs and hard surfaces.

50g of SCOOT is sufficient to make 9 litres of solution. 9 litres of solution (1 x 50g sachet) is sufficient to treat 16m².

SCOOT must be completely diluted in water and applied using a watering can fitted with a fine rose or with a garden sprayer.

Directions:

Empty 1 sachet of SCOOT into a clean (9 litre) container and add sufficient lukewarm water to completely dissolve the powder.

When the solution is ready, add enough cold water to make:

- a minimum (*safe*) dilution of 2.5 litres (**for high concentration spot treatment to prevent fouling*),
- or a maximum dilution of 9 litres for a wide area (16m²) application.
- stir thoroughly and apply immediately.

**If being used to reduce fouling it is recommended that contaminated areas are cleaned before applying SCOOT.*

MAPP 13960

Apply SCOOT under dry conditions and ensure that the spray deposit dries on the area to be protected. If rain occurs before the deposit dries reapplication will be necessary.

Do not mix SCOOT with any other product.

Safety instructions:

- keep out of the reach of children
- keep in original container, tightly closed in a safe place
- keep away from food and drink
- store unused sachets in a safe place
- do not store half used sachets
- do not breathe powder dust
- do not empty into drains
- dispose of unused product in its original container at a household waste site (*civic amenity site - contact your local authority for details*)
- dispose of empty container in dustbin
- if you feel unwell seek medical advice immediately
- comply with all instructions for use to avoid risk to man and the environment.

- pet friendly
- for use on lawns, trees, shrubs, seeds, bulbs and hard surfaces
- easy to apply

SCOOT

SCOOT encourages foxes to keep away from any area treated with SCOOT.
