SPECIES SPECIFIC AGAINST: PEST BIRDS in commercial, industrial, rural and residential situations. Do not use when gulls are present.

PREPARING SURFACES FOR TREATMENT

Ensure appropriate PPE is used when preparing the site, removal of all nests and other debris. For effective installation of Ornaway Bird Gel all surfaces within the installation area must be thoroughly cleaned and free from faecal and organic matter. In some cases where birds have been habitually nesting for several years (High pressure site) including high pressure areas of gulls, before installation, these birds will need to either be trapped and despatched (Check National legislation guidelines for despatching) or Ornaway is to be installed in combination with appropriate netting and spikes and should be installed as part of an integrated plan to keep birds away from a specific area.

Enhanced efficacy will be gained by treating the cleaned areas with a fine mist spray of disinfectant (e.g. Guanaway). Do not over-wet the area as this will lengthen drying time and inhibit adhesion of silicone. Ornaway Bird Gel will only be completely effective if the site is properly cleaned before installation.

APPLICATION

Following surface preparation of the treatment area, apply dishes to surfaces according to the spacing and application rate guidelines in a grid fashion. Dishes can be stuck to the surface with an appropriate adhesive.

STORAGE

Cool dry conditions. Keep out of reach of children.

DISPOSAL

Product contains food and pharmaceutical grade materials and can be disposed of appropriately on site or at an approved waste disposal facility. Never dispose unused product down any indoor or outdoor drains.

SPACING & APPLICATION RATES

High pressure site
4-6 inches (10-15cm)

Medium pressure site
8-10 inches (20-25cm)

Low pressure site
12-20 inches (30-50cm)

HEALTH & SAFETY

CONTAINS: PIPER NIGRUM; MENTHA X PIPERITA

Warning

May cause an allergic skin reaction.
Harmful to aquatic life with long lasting effects. Keep out of reach of children. Avoid release to the environment. Wear protective gloves/eye protection. IF ON SKIN: Wash with plenty of water/soap. If skin irritation or rash occurs: Get medical attention. Wash contaminated clothing before reuse. Dispose of contents/container to hazardous or special waste collection point.
