**READY TO USE**

## **STOPS POULTRY RED MITE FAST**

- ✓ **PESTICIDE FREE**
- ✓ **PHYSICAL MODE OF ACTION**
- ✓ **SAFE TO USE WHEN BIRDS ARE PRESENT**

### **Application**

Spray directly onto the poultry mites ensuring a thorough wetting of the pest, surfaces and crevices where mites hide or live. Apply as a coarse spray until you see runoff. Absorbent surfaces will require higher rates. There are no restrictions on the number MiteMax® applications you can make during the life of your hens. We recommend follow up sprays are applied at subsequent signs of mite activity and applied as needed to prevent infestations becoming established.
