GLUE SOLVENT

ROMAX® RAT CP

Contains 0.0375 % (w/w) coumatetralyl. Based on a special 100 g 'soft block' formulation, never seen in the UK before, this bait has proved to be particularly attractive to rats. Tests have shown it to be preferred to cereal-based baits. As a block, however, it is 'non-spill' and can be secured in place. It has proved to be effective against both the 'good feeders' and the more difficult to control 'hesitant feeders' in the rat population, and as a multi-feed bait it can be as potent as brodifacoum. IR(95687)

ORDER CODE BRRATCP5

ROMAX® MUSKIL® WHOLE WHEAT

Contains 0.0025 % difenacoum & 0.0025 % bromadiolone. For use against rats & mice, in and around buildings. Romax® Muskil® is formulated using high quality food grade whole wheat, blended with feeding enhancers to improve palatability. The active ingredients are applied using Special Absorption Technology and the wheat is treated to prevent germination which increases the quality of the product without affecting its palatability.

ORDER CODE BRDP300G

ROMAX® VENOM PASTA SACHET

The Romax Venom formulation of brodifacoum made with Italian pasta is presented in sachets that can be attached or skewered within the bait box. Approved for use 'in and around buildings' for rats and mice.

3 kg
ORDER CODE BVPPROD3

ROMAX® VENOM LIPOGEL

The Romax Venom Lipogel combines brodifacoum within an increased water activity formulation offering rapid efficacy as well as the convenience and capacity of rapid baiting. The availability of Brodifacoum in this format gives rapid absorption into soft tissues. For use 'in and around buildings' for rats and mice.

300 g
ORDER CODE BVLPBRD

ROMAX® RODENT SEAL

Romax® Rodent Seal uses a top quality industrial sealant in a patented mix of stainless steel fibres. 'Wire wool' plus proofing materials has long been known but for the first time, they've been combined to offer a professional and time saving solution to exclusion. In addition, the product has been commercially tested and is 'metal-detectable', making it a good choice for sealing around plant and machinery in the food industry.

310 ml
ORDER CODE BRORODSE

ROMAX® DRAIN TRACING DYE

These dyes are nontoxic organic dyes and, where possible, are made from food grade or similar concentrates. Tracing dyes are used extensively by many Local Authorities, Water Companies and the National Rivers Authority etc.
